

Recycling Sam And

_____ (student's name)

To The Rescue

Recycling Sam wants you to know,
Protecting the earth is the way to go.
If you want to see pollution erased,
Reduce, recycle, and reuse the waste.

The three Rs to help the earth are:

Aluminum cans and aluminum foil
 Break down slowly in the soil.
 Save your aluminum waste and then
 Toss it in the recycling bin.

Write yes or no for each sentence.

_____ Aluminum breaks down quickly
 in the soil.

_____ Aluminum should be recycled.

2

Sam's mom reads the news each day,
 And afterward Sam is sure to say,
 "Paper is reusable, as everyone knows.
 Stack up the papers; we'll recycle those."

Another way to save paper is

3

When you empty the juice from the bottle,
 Will you be someone we all wish to model?
 Like Recycling Sam, will you use it again
 And work toward being earth's best friend?

I can use an empty juice bottle to make

4

Recycling with nature is a good thing to do
 To cut down on waste and help fertilize, too.
 Parents and children can all work together
 To keep the earth beautiful now and forever.

I can help make a beautiful earth by

5

Raring To Recycle!

Do your part to help the earth!
Color in a space after you have completed that activity.
